PurePro® S800

PurePro® S800 : The world's most elegant RO systems

PurePro S800 system is a modern kitchen appliance that has been carefully designed with health consciousness, efficiency, high performance and convenience in mind. S800 are the world's most elegant water systems are also the world's most attractive water systems.

PurePro S800 system uses reverse osmosis (RO) technology - which is recognized as the most effective at significantly reducing a large number of contaminants that may be in your water - no other home water treatment system offers you as much protection and reliability.

Quick-Change Cartridge Filters

Replacing the filters on this system is one of the easiest to do. Quick-Change Filter Cartridges make cartridge replacement fast, clean & easy, without contact with used filter material . No Mess, No Fuss with these filters just remove the old ones and install the new filters

Technical Info:

CARTRIDGE FILTERS

(Stage 1) 5 Micron Sediment Filter:

With only five micron rating. It is effective in removing dirt, rust and sand particles.

(Stage 2) Granular Activated Carbon Filter:

It takes out 99% of the chlorine and organic chemicals. It provides enhanced reduction of taste, odour, and colour.

(Stage 3) Granular Activated Carbon Filter:

It takes out 99% of the chlorine and organic chemicals. It provides enhanced reduction of taste, odour, and colour.

(Stage 4) Reverse Osmosis Membrane:

A thin film composite (TFC) high quality membrane that processes 50 gallons per day. It removes the following hard water contaminants that may be present in your water: lead, cooper, barium, chromium, mercury, sodium, cadmium, fluoride, nitrite, nitrate, and selenium.

(Stage 5) Inline Post Carbon filter:

This carbon post filter removes objectionable tastes and odours to enhance the quality of your drinking water. We are using NSF approved post carbon to guarantee the taste of water.

Specifications:

Production: 50 GPD / 189 LPD

Water storage tank: 2.2gallons / 8.3 litres

With a booster pump (optional):

-Input in AC 110Volt, 220Volt or 240Volt (50/60Hz).

Operation pressure: 10 -100 psi

Dimensions: (cm)47 (L) x 40(H) x 27 (W)

Weight: 11.5 kg
